detailed yet accessible  
overview of Modern  
Standard Arabic in  
which the essential  
aspects of its phonology,  
morphology and syntax  
can be readily looked up  
and understood.

Accompanied by  
extensive carefully-  
chosen examples, it will  
prove invaluable as a  
practical guide for  
supporting students'

**INTRODUCTION  
TO KORANIC AND  
CLASSICAL ARABIC**  
is an elementary-level  
grammar of standard  
classical Arabic, the  
literary norm of the  
Arabic language that  
has not changed  
appreciably in fourteen  
hundred years. An  
indispensable tool for all  
who are interested in  
Islamic religion, science,

and literature, the language presented in this book will enable the learner to study

firsthand the primary sources of Islamic civilization and the classics of the Islamic Near East. W. M.

Thackston is Professor of the Practice in Persian and Other Near Eastern Languages at Harvard University,

where he has taught  
Persian and Arabic for  
over twenty years.

Author of numerous  
books and articles on  
the languages and  
literatures of the Near  
East, his works include a  
new English translation  
of the Baburnama, A  
Century of Princes:  
Sources on Timurid  
History and Art, and  
Tales from Luristan:

Anyone studying literary  
or classical Arabic  
beyond the elementary  
or tourist level will need  
this book. No other  
English-language  
grammar of the Arabic  
language is as thorough  
as this classic reference.

The work was originally

published in German in 1844-45 by Karl Paul Caspari, a theologian and orientalist. In 1859 English scholar W.

Wright published this masterly translation of Caspari ' s work, with numerous additions and corrections. Unlike many more recent grammars, this work contains few inaccuracies or errors.

Moreover, although it is a reference grammar, it cites many examples of sentences, phrases, and figures of speech found in classical Arabic prose and poetry. Originally published in two volumes, it has been republished here in one volume; however, the original arrangement has been retained. Thus, Volume One covers

orthography and ortho ë py, and parts of speech (including extensive coverage of verbs and nouns, numerals and the particles). Volume Two deals with syntax, including the component parts of a sentence, the sentence in general, and different kinds of sentences. A final section discusses
