SuperMemo can supervise your repetitions without much involvement on your part. SuperMemo is not painless, because it does not allow you to learn with no effort at all. However, it can be shown in strictly scientific terms that SuperMemo helps you increase the speed of learning many times over.

~~Principles of spaced repetition—Super Memory~~

SuperMemo helps you organize learning and minimize time needed for repetitions. However, it is not the ultimate formula for success in learning. The mere personality of the student can often render SuperMemo unusable. The main quality needed to succeed is perseverance .

This is one of those rare books that can help all of us with something that is both troublesome and worrisome — our memory. It does this with ease, not by attempting to teach some exhausting rote-memory techniques, but in 12 easy and effortlessly smooth steps. Shakuntala Devi's down-to-earth writing and encouraging step-by-step approach puts super memory in reach of everyone. As she says, 'Take my word. You can start applying my memory-enhancing techniques immediately, right now. Before you will realize, applying my methods and strategies will become your second nature.' Shakuntala Devi has been honing and teaching her memory improvement techniques for more than 40 years. Super Memory is the result of her life's work, specially tailored to our needs as we age, and encompassing all of the many ways we can use a better memory every day.

Memory is the stepping-stone to thinking, because without remembering facts, you cannot think, conceptualize, reason, make decisions, create. or contribute. There is no learning without memory.

Imagine that you walk into a room to grab something off the coffee table. You enter the room,

only to stop in your tracks—a slight panic sets in as you realize you forgot why you walked in there. Feeling like you are in a haze, you scan the area to see if you can pick up on a visual clue that will lead you to what you need to retrieve. Frustrated, you leave the room again. Knowing that your memory is fleeting makes you feel upset and confused. Why are your thoughts so temporary? This is an incredibly frustrating feeling, especially when you are trying to complete important tasks. Your mind needs to work with you, not against you. Likely, you wish you could do something to enhance your cognitive skills, change the way you think and how you remember information. As you age, your memory continues to decline and you fall victim to cognitive decline. You find yourself hoping that you can reverse this process, or at least slow it down. The great news is that you can! Through the help of this super book, you will learn: How to open your mind to use your photographic memory potential How to develop your mental faculties for better results How to improve concentration and learning How to improve physical and mental performance and be more productive How to train your brain to keep it young and supple How to increase your brainpower by eating right and learning healthy habits This is one of the most comprehensive works devoted to training your memory. It works because it is an advanced and realistic look at how your memory, brain and mind works. This is not your typical memory book or exercise workbook; it is meant to be used as a guide that can help you for years to come. Picking up on various cues and hints that you used to overlook, you will feel your brain working quicker. If you are tired of feeling forgetful and ditzy, these techniques will help you. If you want a realistic look at the biological and psychological underpinnings of memory, and how you can use these to aid you, you've come to the right place. By training regularly with the exercises and advice you will find in this book, you will counter cognitive decline and improve your cognitive functions and mental abilities.

When's the last time you lost your keys or forgot what you were saying when somebody interrupted? If you'd like to gain better access to the database known as your brain, you'll love these latest and most successful breakthroughs in the study of memory. The techniques are based on the fact that most of the time the facts you've "forgotten" actually are stored away in your brain; the trick is to know where you filed them. Simple exercises are designed to use what works best for your particular personality.

Harry Lorayne, who has trained his own memory to the point where he is acclaimed as having the most phenomenal memory in the world, has written the most practical and lucid memory-training book ever. Now, at last, with the famous Lorayne Link-and-Peg System, readers will be able to recall faces, names, appointments and anything else they need to acquire a winning edge.

Presents an effective guide to faster reading and memory training based on the system developed by a leading specialist in the field of memory enhancement, in a handbook designed to help readers develop their study skills, remember and use important details, and more. Reissue.

Unleash the hidden power of your mind It's there in all of us. A mental resource we don't think much about. Memory. And now there's a way to master its power. . . . Through Harry Lorayne and Jerry Lucas's simple, fail-safe memory system, you can become more effective, more imaginative, and more powerful at work, at school, in sports, and at play. • Read with speed and greater understanding. • File phone numbers, data, figures, and appointments right in your head. • Send those birthday and anniversary cards on time. • Learn foreign words and phrases with ease. • Shine in the classroom and shorten study hours. • Dominate social situations: Remember and use important personal details. Begin today. The change in your life

will be unforgettable

Never forget a name or a number again! Dominic O'Brien is legendary for winning the World Memory Championship eight times and outwitting the casinos of Las Vegas to win a fortune at blackjack. Here, for the first time, he reveals his secrets for memory mastery. Follow his brain-boosting techniques and turn your mind into a super-powered computer that will recall PIN numbers with ease, remember directions, and help bring you success in business, leisure, and relationships.

Come to an exciting journey into the Wonderland of Numbers. 'As for numbers, they hate nobody and nobody can afford to hate them,' says Neha's father, who is a supportive parent trying to re-instill confidence in his child. Apart from revealing the specialties of each individual number, from zero to nine, and little mathematical tricks, Shakuntala Devi has underscored another very important aspect. It is upto parents and teachers to ensure that children are initiated into a lifelong love affair with numbers. An engaging child, Neha, suddenly starts lagging in Maths when a new Maths teacher arrives and she starts converting her fear of the teacher into a terror of Maths. Matters touch the nadir when she scores a zero in a test. On the way home that day, she meets with an accident. While her parents and teachers suffer an anxious vigil till she regains consciousness, she travels to the Kingdom of Zero through her sub-conscious mind. In the Wonderland of Numbers is the story of Neha's adventures in the Kingdom of Zero.

A Page A Minute spells a lifetime of achievement--at home, in school, . and on the job. Harry Lorayne shows how to make every minute count, dramatically increasing performance, productivity, and profits. "Ingenious".--The New York Times. Copyright © Libri GmbH. All rights reserved.
